

artisan Specification Sheet

16 Standard Sizes - to fit common requirements in two and three-walled shower options. Custom sizes by special order.

Multi-Shapes - square, rectangle, angled front.

Tile-over (hidden) waste - centre waste position is standard.

Fully frameless screens. Some sizes have choice of door sizes and positions; doors can be hinged left or right.

SHOWER BASE

Structurally solid pre-formed base made of reinforced composite materials - already 100% waterproof.

Base Interlayer on surface for adhesion only.

Ready-to-tile surface - to allow for easy application of a wide range of tile adhesives and membranes.

30mm high shower base with 60mm high Zero-hob™ in matt chrome around perimeter of base.

Guaranteed even slope (20mm fall) to waste.

For placement on existing concrete or wooden flooring. No structural alterations to floor required.

70mm high upstand - for secure connection to wall waterproofing and to eliminate critical risk area at wall-to-base junction.

Factory-fitted glass receiver channels on base.

Base underside adhesive supplied (for fixing to floor).

Weight: 16kg/m²

20-year leak-free and durability warranty.

WASTE FITTING

40mm EasyClean trap with side outlet.(standard).

Comes with Atlantis tile-over lid - adjustable to match the height of the tiles.

FULLY FRAMELESS SCREENS

Specially manufactured for precision fit with base.

Fully frameless 8mm toughened safety glass (standard.)

NZ Safety Standard AS/ NZS 2208 compliant.

1940mm high screens.

Showering area is equivalent to nominal base size.

Anodised aluminium top rail brace supplied.

Solid-brass chrome patch hinges.

Doors can be hinged left or right.

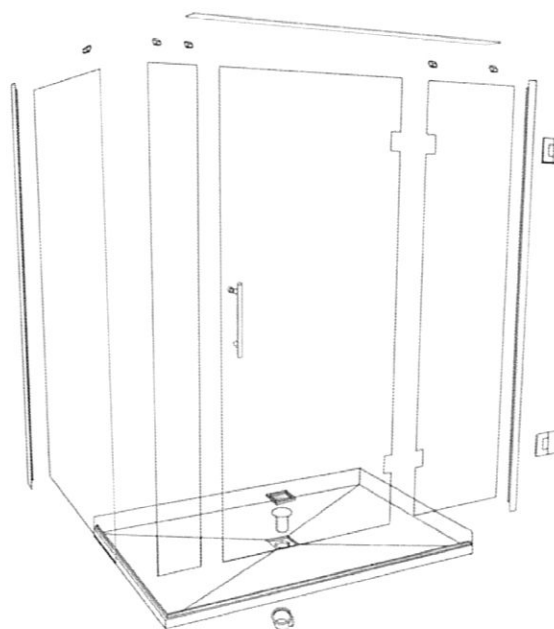

5-year warranty

WALL MEMBRANE [NOT SUPPLIED]

Wide range of liquid applied waterproofing membranes can be applied to shower walls and base according to manufacturer's instructions and subject to their warranty.

WARRANTIES

Atlantis warranties apply to all components of this system, including the 20-year leak-free warranty on the Zero-hob™ shower base.
